

VRS Self-Attestation

In compliance with the [OCI Conformance Program](#), OCI requires all Verification Router Service (VRS) Solution Providers to submit a signed and dated self-attestation as part of their ATP Verifiable Credential integration production deployment. The VRS provider shall submit the completed form to the OCI Steering Committee via hello@oc-i.org. Following the submission, OCI will publish the VRS provider's self-attestation.

By signing this attestation, I affirm to the best of my knowledge that my organization meets the currently applicable version of the [VRS Integration Conformance Criteria](#).

Sign and date by an authorized executive within the company.
